**NEW 2011: ESCAPE AND BIVOUAC!**

In between Briançon and Grenoble, hanging villages spread upon the « Haute Romanche » Valley. Alpine pastures cover the mountain, facing the Queen Meije and the Ecrins National Park. It is the occasion for family hikes in the forest or an escape up in the heights. Michèle Thouin, Mountain Leader, will guide you across this highly coloured territory. No matters whether you are a kid or an adult, you will appreciate Proper's company. As a packhorse, he will carry a delicious meal or tents for your bivouac. Sleeping under tents in the mountains becomes an accessible dream. Along with Michele's story telling and tales, your hike will be pleasant and serene.

From June through September, with departures in La Grave, MEIJESCAPADES offers unique choices to walk in small groups. You just need to choose how you want to escape!
